

Training the mind in problem solving

These two books involving arranging of pieces to form shapes are good for training the mind in problem solving.

Shape Quiz Book (\$ 6)

This book contains 100 shapes (in silhouette) that can be formed using the four plastic pieces that are provided with the book.

Mr. Tan Kin Lian explains the technique to solve the shapes and how it helps to develop the skill of problem solving, thinking "out of the box" and spatial intelligence.

It is also great fun for the family. It is suitable for children, adults and seniors.

There is also an achievement record for each member of the family to record the time taken to solve each shape.

Tangram Book (\$ 6)

This book contains 100 shapes (in silhouette) that can be formed using the seven pieces that are provided with the book.

Mr. Tan Kin Lian explains the technique to solve the shapes and how it helps to develop the skill of problem solving, thinking "out of the box" and spatial intelligence.

It is also great fun for the family. It is suitable for children, adults and seniors.

There is also an achievement record for each family member to record the time taken to solve each shape.

They can be purchased from c-pearl.com/shop

Additional plastic pieces for the Shape Quiz and Tangram can also be purchased to give fun to members of the family. They can also be used for a home competition.
